

### WORLD CLASS INSTRUCTION

Former Formula One Grand Prix driver Allen Berg is the Chief Instructor. He has over thirty years experience in professional motorsports including driving, team ownership, race event management, plus extensive driver instruction and coaching at the international level.

Tracks at which he has competed include Monaco, LeMans, Paul Ricard, Nurburgring, Hockenheim, Spa, Silverstone, Brands Hatch, Long Beach, Daytona, Montreal, Mosport, Mt Fuji and Adelaide.

Whether you're looking for that once in a lifetime experience or seeking to expand your motor sports career, Allen Berg Racing Schools has a program for you.

### WORLD CLASS TECHNOLOGY

We are the only racing school to use Formula One style MoTeC Data Acquisition technology on all of our race cars. The same data systems are used by teams in the Indy Racing League, ALMS and the Indianapolis 500.

ChaseCam rollhoop cameras also provide views of your driving from your perspective. This cutting edge technology is the latest tool used by professional race teams.

### ALLEN BERG RACING SCHOOL OFFERS THE FOLLOWING PROGRAMS

- **Formula Car Programs** feature use of on-board cameras and MoTeC I2 Pro data acquisition systems fitted to our carbon fiber monocoque race cars
- **Legends Racing Program** is about the thrills and exhilaration of wheeling a Legends race car around one of North America's finest 1/2 mile high banked oval race tracks
- **Karting Programs** providing a thrilling experience in our thoroughbred racing karts
- **High Performance Track Driving Days** for those that want to explore the limits of their own road cars
- **Road Car Safety Programs** which include Accident Avoidance/Skid Control as well as Winter Driving Clinics to improve safety related performance in corporate fleets and individuals at sites throughout Western Canada

### CORPORATE PROGRAMS

Corporate Test Drive Employee reward or incentive. This program is the perfect way to reward a group of employees who have worked hard, at a more affordable price. Let them come and have the thrill that will last a lifetime.

Corporate School is geared towards the sports minded enthusiast. Your group will be exposed to the principals of high performance racing.

## ALLEN BERG RACING SCHOOL PROGRAMS

### FORMULA CAR PROGRAMS

#### Introductory Formula Car Program • \$400 + GST

These programs are very popular as Christmas, Birthday and Father's Day gifts, or for those that just have the urge to drive a race car. We provide you with all the driving equipment, classroom briefing outlining the controls of a Formula race car, then two lead/follow sessions in our Formula race cars.

#### Half Day Formula Experience • \$800 + GST

An ideal gift for that racing enthusiast, this program provides an introduction to Formula racing. Learn the fundamentals of race driving in our Formula cars including an open lapping session.

#### Formula One Day Program • \$1600 + GST

Our most popular program. You will gain significant knowledge about driving a race car, ample seat time and an afternoon of open lapping sessions with debriefing using the MoTeC system. At the end of the day you will be driving the race cars as fast as your capabilities allow. This is also the base program for our Corporate Events, as well as the preliminary program for our Advanced One Day Program.

TATUUS Formula Renault 1600

#### Two Day Formula Car Program • \$3000 + GST

This is our premier program where you will gain a comprehensive insight into professional race driving. We provide thorough classroom theory, advanced driving techniques and instruction, while driving our Formula race cars at their limits.

Graduates of our two day programs have the qualifications to apply for an WCMA Road Racing License.

#### Advanced One Day Program • \$1800 + GST

This is the equivalent of Day Two of our Two Day program. On this day you will be treated like a professional racing driver with numerous open lapping sessions with

detailed debriefing sessions where your driving is critiqued using our MoTeC and ChaseCam technologies.

At the end of our One and Two Day Programs we provide a complimentary 2.0GB USB drive loaded with your video and data.

### WORLD CLASS RACE CARS

#### TATUUS Formula Renault 1600 Specifications

- 100% Carbon Fiber Monocoque Chassis and Body
- 0-100 KPH in 4.0 seconds and a top speed of 200KPH
- MoTeC Onboard Data Acquisition Computers record driver, engine and chassis information, which is used to analyze driver performance and thus enhance their driving skills
- ChaseCam Onboard Video Cameras used for debriefing with complementary video copies of your lapping sessions in our one & two day programs

### LEGENDS RACING PROGRAM

#### 10 Lap Test Drive • \$110 + GST

This is open to anyone who has a valid drivers license or has a guardian available to sign for them. NO racing experience required.

#### Adventure School • \$695 + GST

The is designed to give the driver an opportunity to take a Legends race car and push it through its paces. This program is open to anyone with a driver's license.

#### Advanced School \$695 + GST

For graduates of our ABRS Legends Adventure Racing School. This program is designed to define, expand upon, and fine skills developed in the Advanced Renegade Racing School.

### Top Gun School

#### \$695 + GST

Utilizing Video Analysis, one-on-one track side observation and radio communications, watch your driving skills improve.

Legends race car

### KARTING PROGRAMS

#### One Day Karting Program • \$500 + GST

Our One Day Karting Programs are designed to provide the thrills of high performance race driving where you not only have the opportunity to drive our authentic race karts as fast as you can, you actually learn the skills and techniques used by experienced racers.

#### Arrive & Drive Kart Racing • \$700 + GST

Have you ever wanted to try real racing but never had the opportunity because of lack of budget, mechanical knowledge, time or space restrictions?

ABRS introduces the first ever Arrive & Drive kart racing program. This is exactly like it sounds, you arrive and the track and get to compete in an actual Kart Racing Club race event, in one of the official classes.

We will provide you the kart, race wear, mechanical preparation and professional drivers coaching support that enables you to compete in an actual race event.

### WORLD CLASS KARTS

ABRS Karts are designed and constructed by Internationally recognized karting manufacturer CRG Karts of Italy. Engines are purpose built TKM racing motors, design by fabled Cosworth Engineering and are the first of their kind in North America. Drivers that started with CRG Karts include Michael Schumacher and Lewis Hamilton.
